Attn: Lily Lee
Staff Person
US Environmental Protection Agency

In your email that was sent to me, you addressed the Hunters Point site and the "cleanup" of the toxic chemicals and substances located there. In reality, these toxic substances can never be removed from the Hunters Point land to bring this land back to its original condition.

You did not mention anything about Candlestick Park, the parking lot and adjacent land which is located about two hundred feet from Hunters Point and is located right next to the contaminated body of water, "Yosemite Slough."

I have enclosed additional information (below) about the importance of immediately stopping CRIMINAL DEVELOPER LENNAR FROM DESTROYING CANDLESTICK PARK AND GROUNDS. There is an auction scheduled for September 30, 2014 to sell the contents of Candlestick Park and shortly thereafter, CRIMINAL DEVELOPER LENNAR WILL THEN BLOW UP CANDLESTICK PARK. This auction must be stopped immediately AND THE DESTRUCTION OF CANDLESTICK PARK MUST BE STOPPED IMMEDIATELY.

What will the Environmental Protection Agency do to stop CRIMINAL DEVELOPER LENNAR FROM DESTROYING CANDLESTICK PARK and from holding the September 30, 2014 auction?

Steve Aronovsky

Wednesday, September 3, 2014

As discussed in my email that was forwarded to you from Lauren Tozzi, Special Assistant, Environmental Protection Agency, Washington, D.C., Candlestick Park, the parking lot and adjacent land are in a similar situation as is the Hunter Point site. Candlestick Park and grounds are actually less than one mile away from Hunters Point, just across from "Yosemite Slough," WHICH IS A CONTAMINATED BODY OF WATER IN THE SAN FRANCISCO BAY. The adjacent land to Candlestick Park (located across the street from the northern parking lot at Candlestick Park) is situated just a couple hundred feet from the Hunters Point Site AND IT'S CONTAMINATED LAND AND AIR.

An auction is scheduled for 9/30/14 to sell the contents in and around Candlestick Park, and then within a short period of time thereafter, Lennar will then BLOW UP CANDLESTICK PARK. THESE EVENTS MUST NOT OCCUR AND MUST BE STOPPED IMMEDIATELY BY THE EPA. There are several residential communities that ARE LOCATED WITHIN WALKING DISTANCE OF Candlestick Park. There are many streets of row housing that are located to the northwest of Candlestick Park--hundreds of people and their kids live in these houses. There is a residential community, Candlestick Park Trailer Court, that accommodates over 75 trailers and rv's on the north side of Candlestick Park. There are a substantial number of apartments, inhabited by hundreds of people and their kids, located just across the street from the main entrance of Candlestick Park. These residential communities are in very close proximity to the toxic chemicals and substances

that would be blowing in their direction if CRIMINAL DEVELOPER LENNAR DESTROYS CANDLESTICK PARK in the next weeks to come. The people that live in these communities would most likely be harmed from the toxic chemicals and substances blowing from the Candlestick Park location to their location. CRIMINAL DEVELOPER LENNAR, THE CITY OF SAN FRANCISCO AND POSSIBLY THE EPA COULD POSSIBLY BE HELD LIABLE FOR THE HARM DONE TO THESE PEOPLE AND THEIR KIDS.

Further, has the soil at the Candlestick Park location been tested for toxic chemicals and substances? There is a park across the street from Candlestick Park at the northwest corner where there is a baseball field and playground. This park had been tested previously and it was determined that there were substantial hazardous chemicals found in the ground of this park. There were reports that people and kids who played at this park developed illnesses. This park is located about half a mile from Hunter Point and about a quarter mile from contaminated "Yosemite Sleugh." The Candlestick Park grounds MUST BE TESTED IMMEDIATELY for hazardous chemicals and substances. No auction permit, destruction permit, development permit or building permit should be issued to CRIMINAL DEVELOPER LENNAR AS THE CANDLESTICK PARK SITE IS NOT A SAFE, TOXIC FREE, CHEMICAL FREE ENVIRONMENT FOR PEOPLE AND THEIR FAMILIES TO LIVE ON.

*****It is the Environmental Protection Agency's JOB AND DUTY TO IMMEDIATELY MAKE INVESTIGATIONS AND TEST THE SOIL, GROUND WATER AND AIR CONDITIONS AT THE CANDLESTICK PARK SITE.

CRIMINAL DEVELOPER LENNAR'S PROPOSED DEVELOPMENT AT THE CANDLESTICK PARK SITE MUST BE STOPPED IMMEDIATELY!

The scheduled auction for 9/30/14 and subsequent DESTRUCTION OF CANDLESTICK PARK BY CRIMINAL DEVELOPER LENNAR MUST BE STOPPED AT ONCE BY THE EPA. Eminent Domain Proceedings must be filed today by the EPA and/or city of San Francisco to stop this environmental disaster and incredible mistake from happening. IT IS THE EPA'S DUTY AND JOB TO SAVE CANDLESTICK PARK, THE PARKING LOT AND ADJACENT LAND FROM BEING DESTROYED AND DEVELOPED BY CRIMINAL DEVELOPER LENNAR AND PREVENTING AN ENVIRONMENTAL DISASTER FROM OCCURRING. IT IS THE EPA'S JOB AND DUTY TO PROTECT AND PRESERVE THE HEALTH OF THE PEOPLE THAT LIVE CLOSE TO CANDLESTICK PARK FROM BEING EXPOSED TO HARMFUL AND TOXIC CHEMICALS AND SUBSTANCES THAT ARE IN THE GROUND AT THIS LOCATION AND WOULD FURTHER BE RELEASED FROM THE CANDLESTICK PARK BUILDING AND GROUNDS IF IT IS DESTROYED BY CRIMINAL DEVELOPER LENNAR.

Thank you for your prompt attention and action against CRIMINAL DEVELOPER LENNAR AND THE IMMEDIATE STOPPING OF THE CANDLESTICK PARK AUCTION AND DEVELOPMENT.
